**CONSIDER AN EMERGENCY AMENDMENT REDUCING THE FEE
USED TO FUND CALIFORNIA'S BALLAST WATER MANAGEMENT PROGRAMS
FOR CONTROL OF NONINDIGENOUS SPECIES**

PROPOSAL:

The Commission's Staff proposes the adoption of an emergency amendment to reduce the fee required to fund California's ballast water management programs for control of nonindigenous species. The fee would be set, as of July 1, 2002, at \$200 for each voyage by a vessel into California if, during that voyage, the vessel has traveled through any location outside the United States' Exclusive Economic Zone (USEEZ). Current regulations provide for a fee of \$400 per such voyage.

BACKGROUND:

Under Section 71215(b) of the Public Resources Code (P.R.C.), the Commission is authorized and directed to establish a fee (the Fee) to be used to fund the State's ballast water management program. The fee is not to exceed \$1000 per voyage, defined as a transit by a vessel destined for any California port from a port or place outside the USEEZ, including intermediate stops at a port or place within the USEEZ.

The Fee was established initially at \$600 per voyage by emergency regulation that became effective on January 1, 2000. The Fee was reduced to \$400 per voyage, effective April 30, 2000 by emergency regulation. That emergency regulation was replaced on August 29, 2000 with permanent regulations setting the fee at \$400 per voyage. Quarterly review of the Fund status by Board of Equalization and State Land Commission staff predicts that under conservative assumptions, a continued Fee set at \$400 is unnecessarily high.

Representatives from the community subject to the fee have concurred with the imposition of a flat fee for each voyage. Since January of 2000, the Commission Staff has met periodically with representatives from the regulated community in a

Technical Advisory Group ("the TAG"). In 2000, the TAG took note of the fact that the budgets for the various programs through the end of 2003 have largely been established, so costs are essentially fixed. As a result, any reduction in the Fee for some would result in an increase in the Fee for others. The TAG therefore recommended a flat Fee for everyone.

In February 2002, staff from BOE and CSLC, after reviewing costs and other factors, recommended that the Fee be reduced to \$200 per qualifying voyage beginning July 1, 2002. The TAG was asked to respond to this proposed Fee reduction in March 2002 and has agreed with staff recommendations. A permanent regulation is being prepared. However, due to the time required to process this permanent regulation and the need to reduce Fee amount it is necessary to adopt this emergency regulation in order to establish the new Fee as of July 1, 2002.

The amount of the Fee earlier charged was based upon an analysis which entailed a number of assumptions, the primary one being that the financial needs for the program will be in accordance with the Budget Change Proposals which have been submitted to date. These call for expenditures of \$615,000 in Fiscal Year ("FY") 1999/2000, \$1,930,000 in FY 2000/2001, \$2,005,00 in FY 2001/2002, \$2,098,00 in FY 2002/2003 and \$972,500 in FY 2003/2004, at the end of which the program will expire. The other two assumptions were that the State would see about 6000 voyages each year against which the Fee could be levied and that the State would likely see a compliance rate of approximately 75%. These figures were based upon the experience of the shipping community and the Board of Equalization. Calculations were therefore based upon 4500 qualifying voyages per year. With these assumptions, the Commission and the TAG concluded that the Fee could be set at \$400 per voyage.

During an annual review of the Fund status by Board of Equalization and Commission staff in February 2002, several assumptions used to set the Fee at \$400 per voyage were determined to be incorrect. Currently, the State is seeing a compliance rate of approximately 98%; and the number of qualifying voyages per year is approximately 5810 per year. Based on the current Fee amount of \$400 per voyage and the revised assumptions, projections produce revenues that will exceed the costs of the programs mandated under the act. Staff calculated the fee based upon 5810 qualifying voyages a year, rather than 5560, and a compliance rate of 98%, rather than 75%, thus changing the multiplier for the fee from 4500 voyages to 5700 each year. Utilizing the revised assumptions, the Commission and the TAG concluded that the Fee could be set at \$200 per voyage, beginning July 1, 2002 to cover the remaining program costs though FY 2003/2004.

The Commission Staff considered alternatives to the proposed amendments, but found none that would be more effective in carrying out the purpose for which the action is proposed and less burdensome to those who would be affected.

Authority: P.R.C. ' 21084 and 14 Cal. Code Regs. 15300.

2. The proposed regulatory amendments do not affect small businesses as defined in Gov. C. ' 11342, sub. (h), because all affected businesses transportation and warehousing businesses having annual gross receipts of more than \$1,500,000, as specified under Gov. C. ' 11342, sub. (h)(2)(I)(vii).

A. Proposed Amendment.

IT IS RECOMMENDED THAT THE COMMISSION:

1. FIND THAT THE ACTIVITY IS EXEMPT FROM THE REQUIREMENTS OF CEQA PURSUANT TO TITLE 14, CALIFORNIA CODE OF REGULATIONS, §15061 BECAUSE THE ACTIVITY IS NOT A PROJECT AS DEFINED BY PUBLIC RESOURCES CODE §21065 AND TITLE 14, CALIFORNIA CODE OF REGULATIONS, §15378
